सडकको कमीले गर्दा मानिसहरू
समस्याको सम्मुखीन बन्न परिरहेका
छन्। जीटीए क्षेत्रमा यस्ता
ठाउँहरूको कमी छैन जहाँ वाहन
कुट्टे सडकको समेत व्यवस्था छैन।
ती ठाउँका मानिसहरू कतै जान

नभएका ठाउँहरूतिर समय समयमा
अनि विशेष गरेर चुनावको समयमा
नो रोड नो भोटको मुद्दा सुनिन्छ।
तर, जीटीए प्रमुख कार्यपाल अनित

IPHILs at two Chhattisgarh hospitals get national quality certification

RAIPUR, NOV 20 - Integrated public health labs (IPHIL) of two district hospitals in Chhattisgarh have been awarded quality certification under the Union government's National Quality Assurance Standards (NQAS), an official here said on Thursday.

The IPHIL at Pandri district hospital in Raipur has been recognized as the first quality-certified IPHIL in the country, while the one in Balodabazar district hospital has also received certification, said Dr Priyanka Shukla, commissioner-cum-director of the state's Health Services. This milestone underlines Chhattisgarh's rapid growth in expanding scientific, reliable, and high-quality diagnostic services across its public health network, she said.

Chief Minister Vishnu Dev Sai and Health Minister Shyam Bihari Jaiswal have congratulated doctors, technicians, and staff of the IPHILs for the achievement. In a statement, said that the achievement reflects the broad, scientific, and structural reforms underway in Chhattisgarh's health system. "Quality healthcare is our government's highest priority, and this national certification has strengthened the credibility and resilience of our public health services," he said.

According to a release, between January 2024 and November 2025, 832 health institutions across Chhattisgarh have undergone rigorous assessment and certification on national parameters, covering over the most remote regions, such as Chitragupha in Sukma. The certification followed detailed evaluations carried out by expert assessors nominated by the Union Ministry of Health and Family Welfare. The Pandri and Balodabazar IPHILs were evaluated in September, during which teams conducted comprehensive reviews covering patient-centric services, quality control measures, workforce efficiency, safety protocols, documentation, and timely reporting, it said. NIT Rourkela secures patent for India's first autonomous drone system for real-time land mapping

NEW DELHI, NOV 20 - Researchers from the National Institute of Technology, Rourkela, have secured a patent for "BHU-MANACHITRA", an autonomous real-time land mapping drone system, officials said.

The developed system uses Artificial Intelligence (AI) and Unmanned Aerial Vehicle (UAV) technology to automatically generate land maps without requiring internet connectivity, external computers or manual interventions, they added.

Used to identify farmlands, forests, vegetation, and urban areas, land mapping is essential for the geographic governance of any country. It serves as the basis for planning, infrastructure development, natural resource management, and environmental monitoring.

In India, land mapping relies heavily on manual surveys, which often take weeks or months to produce usable maps.

In recent times, drones have been adopted to image distant terrains. However, the captured images still need lab processing, a time-consuming process, to get a readable map.

According to Sambit Bakhli, Associate Professor, Department of Computer Science and Engineering, while the government agencies can apply the innovation to land record modernisation, urban planning and smart-city development, Agriculture departments can instantly assess crop conditions, soil health and irrigation needs, improve both productivity and sustainability.

Moreover, this system may also help in the Digital India Land Record Modernisation Programme (DILRMP), launched by the Government of India in 2016 which aims to digitise cadastral maps to create a modernized and integrated land record system.

The researchers explained that during natural disasters such as floods, landslides, and earthquakes, the system can provide immediate terrain information, helping authorities plan quicker and more effective responses. Environmental and forest departments can use it to monitor deforestation, encroachments, and changes in biodiversity.

A lightweight AI model with as few as 2.48 million parameters, used in BHU-MANACHITRA, makes it suitable for on-board processing, Bakhli said.

Drones, by their design, cannot carry heavy dedicated hardware for real-time image processing, but can carry a tiny processor for executing this lightweight AI model that performs land mapping, he said.

The innovation opens new possibilities for forest decision-making, efficient resource management, and stronger disaster resilience.

With its potential use in a diverse range of sectors, BHU-MANACHITRA can play a pivotal role in enhancing national infrastructure, supporting field-level operations, and enabling more responsive, informed decision-making across the country, he added.

Anti-Naxal operations: ITBP's Chhattisgarh unit gets best battalion award

BHIMAMPUR, NOV 20 - An ITBP battalion deployed in Chhattisgarh, which killed two senior Naxal commanders and initiated welfare schemes to engage leaders of the area, apart from arrests and surrenders of many cadres and over-ground workers, ITBP Director General Praveen Kumar handed over the coveted trophy and citation to the outgoing commandant of the 27th battalion, Vivek Kumar Pandey, and the new Commandant B P Badaya at a ceremonial event held here.

An official citation read out during the DG parade event said the battalion undertook "extraordinary" anti-Naxal operations and achieved "unprecedented" successes in Chhattisgarh.

The ITBP is holding its 64th Raising Day parade on November 23 here, and Union Minister of State for Home Affairs Bandi Sanjay Kumar is expected to officiate the event as the chief guest, according to officials. The force was raised in the aftermath of the 1962 Chinese aggression, and is primarily tasked with guarding the 3,488-km long India-China Line of Actual Control (LAC), apart from undertaking other internal security duties, including

operations against Maoists. The best ITBP anti-Naxal operations trophy assumes significance this time as all central district police forces are working in tandem to neutralise or get the surrender of the extremists to meet the March 2025 target.

Chhattisgarh and its bordering areas remain the main thrust area in this context.

The Union government has asked the security forces to undertake the time-tested two-pronged approach to end the Naxal menace, which includes undertaking intelligence-based armed offensives and conducting welfare works for the locals and tribes inhabiting these areas. The 27th battalion also undertook career counselling sessions to train the tribal youths from the Aundi area, and at least 10 of them cleared the SSC and Chhattisgarh Police constable exams.
