**Sub: construct two separate washrooms & latrines (both gents and ladies) along with pipeline water connection.**

Respected Sir,

I, on behalf of the Suri Christian Community, have the honour to inform you that we have around 300 members reside within your municipality. We have **Common Church' situated behind R.T. Girls' High School, ward No. 10 within Suri Municipality.** In this context, I would like to draw your kind attention to the fact that we do not have any separate washrooms and latrines (both gents and ladies) and pipeline water connection within the compound of Common Church and during long time Sunday worship we have to face immense difficulty especially the aged members.

In the fact and circumstances as stated above, we, on behalf of the Church Committee have **'No objection'** if you construct two separate washrooms & latrines (both gents and ladies) along with pipeline water connection within the compound of Common Church as per the provision.
