The Chairman,
Kalimpong Municipality

Dated : 14th February 2026

Subject : Request for construction of Ladies and Gents Toilet.

Greetings from Sadhu Sundar Singh & Rotary Centre For Skill Development, Disha

We would like to introduce ourselves as **DISHA – Sadhu Sundar Singh & Rotary Centre for Skill Development, Learnet Institute Of Skills, Kalimpong@DISHA**. We have been conducting courses for 2 Years **Diploma in Hospitality Operations, Commis Chef, Bartending, Bakery, Assistant Beauty Therapist (various) and General Duty Assistant (Nursing Assistant)**

We have also provided trainings in the Agriculture Sector in **Dairy Farming and Quality Seed Grower**. Trainings on **Assistant Electrician, Customer Care Executive and Self Employed Tailoring** have also been conducted in the past.

The objective of the schemes is to skill unemployed youth of the state through 'short term vocational skill development training' interventions and empower them to engage in wage employment or self-employment, leading to improved livelihood through increased earnings, and/or improved working conditions and/or opportunities to move from informal to formal work sectors.

Our Centre is in partnership with **The Ministry Of Skill Development and Entrepreneurship, along with National Skill Development Corporation Limited.**

The candidates will be certified by Learnet Skills Limited, under Sector Skill Council in partnership with **National Skill Development Corporation (NSDC).**

Through the past 9 years we have provided training to more than **3000** individuals in various sectors. We have been able to provide placements in renowned establishments such as Oberoi Hotels, Taj, Marriot, Reliance Hospital (Mumbai), Apollo Hospital Chennai, Naturals Beauty Saloon (Andaman & Nicobar). Our Candidates have also been placed internationally in Japan as Caregivers through our Japanese Language program. More than 45 youth from in and around Kalimpong are already working in Japan.

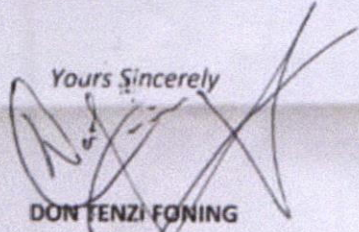

(Handwritten signature in green ink)

Through the years we have been able to upgrade the courses and introduce more courses at our Institute. And so with the increase in the number of students at the institute we are in need of more space for Classrooms and Labs at the institute.

At the same time we would also require a new washroom for the students. The washrooms that we presently have is not adequate to accommodate the total number of students present and it is also not in good condition. We would be grateful if a new washroom could be constructed at our institute to provide a better facility to all who are attending the training.

Thanking You

Yours Sincerely

DON TENZI FONING
Institute Head
